

**PRESS RELEASE
FOR IMMEDIATE DIFFUSION**

**RELOCATION OF CASCADES D'EAU DE PIEDMONT'S
WATER PARK INSTALLATIONS
TO THE MONT SAINT-SAUVEUR WATER PARK**

Saint-Sauveur, Monday March 22nd, 2010 – Mont Saint-Sauveur International has made the decision to relocate the water slide installations of Cascades d'eau de Piedmont to the Mont Saint-Sauveur Water Park site.

This transfer will allow us to concentrate our summer activity development at the Mont Saint-Sauveur Water Park and at the same time offer our clientele a better choice of offers and services.

Mont Saint-Sauveur International is considering other business opportunities for its property of Cascades d'Eau de Piedmont.

The Mont Saint-Sauveur Water Park will be, this summer, enriched by two (2) tube slides and visitors will also have the opportunity to discover the Viking, our alpine roller coaster which offers a 1.5 kilometre run. This alpine activity is unique here in Canada. With this expansion and the new additions, our position as the largest in-mountain water park will be reinforced.
