### **NEW RECORD!**

**Mont Saint-Sauveur is rolling out the white carpet!  
Still the first mountain to offer ski in Quebec**

**Saint-Sauveur, October 18<sup>th</sup> 2009-** The new load of snow guns has impressed everyone. During the last nights, the snow guns have worked offering us exceptional ski conditions. We couldn't wait for a snowstorm to offer our skiers the mountain's opening. Again Mont Saint-Sauveur keeps its status of the first ski area to open its doors in Quebec. Also, Mont Saint-Sauveur sets a new record by opening 9 days earlier than its previous record of 1997 with an opening October 27. The station is as well the first station in Canada to open the night skiing.

The trails *70 OUEST* is now ready for you, skiers and snowboarders with the L'Étoile chairlift.

Staff at Mont Saint-Sauveur says that as long as the weather keeps giving perfect conditions, snowmaking will go on and give more skiable terrain hour by hour. The official launch of 2009-2010 winter season will take place on:

- **Sunday October 18<sup>th</sup> from 3:00 p.m. to 9:00 p.m.**
- **Monday October 19<sup>th</sup> from 9:00 a.m. to 4:00 p.m.**
- The opening hours will be confirmed every day at noon for the next day.

We invite our customers to visit our website at [www.mssi.ca](http://www.mssi.ca) to get informed about the latest ski conditions, hours of operation and rates. You can also reach us at 450.227.4671.

Mont Saint-Sauveur still offers the longest ski season in Quebec!

-30-
